

BEFORE REFURB

AFTER REFURB

# FACTORY-FRESH ORANGE FOR VERY LITTLE GREEN.

There's still lots of juice in your used Snorkel rental fleet.  
Our affordable Big Orange Certified Refurb will prove it.

We start with an exhaustive 000-point Quality Assurance Inspection by Snorkel factory technicians. We then repair, sand, paint and decal your equipment back to factory-fresh condition. From tires on up, each unit is certified to ANSI standards.

Your refurb can include door-to-door shipping, 60-day turntime, and 6-month warranty on parts and labor. All for about half the cost of brand new Snorkels.

We also offer attractive trade-in terms and a convenient purchase/refurb/resale plan.

Let our Certified Refurb juice up your rentals. You'll find it's true:  
The fresher the orange, the sweeter the juice.
